Krushna Bharat Korde

Full Stack Developer | TypeScript, React.js & Node.js Specialist

Nashik, Maharashtra | 9359799245 | kkorde332@gmail.com | linkedin.com/in/kkorde332 | github.com/Krushnakorde

Profile Summary

Full Stack Developer with robust commercial experience building, scaling, and optimizing high-performance web and mobile applications. Highly proficient in modern ecosystems including **TypeScript**, **React.js**, Next.js, React Native, and **Node.js / Express.js**. Experienced in architecting scalable database schemas using **MongoDB** and SQL/MySQL, implementing advanced state management with Redux Toolkit and RTK Query, and deploying production-ready services using Docker, Nginx, and cloud infrastructure.

Technical Skills

Frontend Architecture: TypeScript, JavaScript (ES6+), React.js, Next.js, React Native, Tailwind CSS, HTML5, CSS3
Backend & APIs: Node.js, Express.js, RESTful APIs, JWT Authentication, Socket.IO (WebSockets)
Databases: MongoDB, Mongoose, MySQL, SQL Databases, Firebase
State Management: Redux Toolkit (RTK), RTK Query, Context API
DevOps & Workflow: Git, GitHub, Postman, Vite, Nginx, Linux (WSL 2), Google Play Console

Professional Experience

V-RISE INFOTECH PVT LTD **May 2024 – Present**
Full Stack Developer *Nashik, Maharashtra*

- Architected and shipped end-to-end full-stack features using **TypeScript**, **React.js**, and **Node.js**, ensuring type safety and optimal rendering performance.
- Designed and optimized database schemas and aggregation queries, integrating backend micro-services with **MongoDB** and SQL databases under strict performance benchmarks.
- Implemented modern, accessible UI interfaces using Tailwind CSS and component systems to deliver responsive user experiences across browsers and devices.
- Engineered scalable client-side data management layers using Redux Toolkit, RTK Query, and RESTful endpoints to minimize network overhead and latency.
- Configured secure backend authentication flows (JWT), role-based access control (RBAC), and real-time Socket.IO synchronization modules.
- Managed production deployments, environment configurations, and continuous containerized optimization using Docker and Nginx.

ICICI Bank **2021 – 2023**
Relationship Manager *Mumbai, Maharashtra*

- Managed digital client interaction portfolios and verified operational data under strict institutional guidelines and service-level agreements.
- Analyzed workflow friction points and collaborated cross-functionally to streamline internal digital processes.

Featured Projects

TorqUp – Modular Utility Platform | *React Native, TypeScript, Node.js, MongoDB* **May 2026 – Present**

- Architecting an offline-first mobile and web utility framework with robust local state synchronization and responsive dashboards.
- Optimized asynchronous data-fetching layers to gracefully manage intermittent connectivity and edge-case error handling.

SocietyFlux – Community Management Ecosystem | *React.js, React Native, TypeScript, Node.js* **May 2025 – Apr**

- Developed complex role-based web and mobile dashboards for residents, facility staff, and administrative management committees.
- Integrated real-time visitor tracking alerts and instant push notifications leveraging Socket.IO and cached database queries.

Vistabills – Brokerage & Billing Management | *React Native, Node.js, Express.js, MongoDB* **May 2024 – Apr 202**

- Built comprehensive invoicing and financial tracking user interfaces designed for clear transaction summaries and commission data visualization.
- Configured complete production app builds, signing configurations, and bundle management for seamless Google Play Store distribution.

Education & Credentials

Master of Computer Applications (MCA) **2025 – 2027 (Expected)**
G.E.S. R.H. Sapat College of Engineering (SPPU) *Nashik, Maharashtra*
– Semester 1 SGPA: 8.59 | Semester 2 SGPA: 9.00

Bachelor of Arts (BA) **2017 – 2020**
Savitribai Phule Pune University *Nashik, Maharashtra*

Coding Ninjas – Full Stack Web Development Training **2023 – 2024**
Continuous training program, remote *Remote*
– Full Stack Web Development (Node.js) & React certifications — intensive professional training program completed April 2024.
